Education

Bachelor of Computing | April 2019 | Queen's University

- Bachelor of Computing (Honours) in Computer Science (CSCI-P-BCH).
- Relevant Languages: Python, Java, HTML, CSS, PHP, Javascript.

International Exchange | Winter 2018 | University of Groningen

- Completed third year winter semester in Groningen, The Netherlands, for 5 months.

Ontario Secondary School Diploma | May 2015 | St. Clement's School

Work Experience

Software and Operations Intern | Summer 2018 | Iris Technologies

- Built a clinic sales portal for optimizing the product sales and rental process and increasing clinic engagement.
- Worked on tasks regarding company operations, supply chain, and customer service such as content creation, client outreach and improving website performance.

Software Testing Intern | Summer 2017 | Scribble Live

- Collaborated with a small team of developers and managers in daily standups to complete and test tasks in bi-weekly sprints. Tested all changes made on the "Plan" platform and checked for errors or failures.

Quality Assurance Intern | Summer 2016 | ecobee

- Tested a variety of mobile, web and physical products using simulators as well as manual testing.
- Worked with a team of professionals to troubleshoot and efficiently report software bugs or errors.

Cashier and Barista | September 2016-Present | Common Ground Coffee House

- Prepare refreshments, take orders and make food in a fast-paced student run campus coffee house.

Extracurricular

Marketing Director | May 2018 - Present | QHacks

- Coordinated a team for the marketing of the Queen's hackathon, including the graphics, social media postings, hacker booklets and running opening and closing ceremonies.

Teaching Assistant | September 2017 - Present | Queen's University

- TA for CISC 101, Elements of Computer Science and CISC 282, Fundamentals of Web and Mobile Applications.
- Held office hours and info sessions, marked assignments and quizzes and proctored quizzes and midterms.

Vice Chair | May 2017 - May 2018 | Women in Computing

- Organized community events for women within the school of computing at Queen's in order to increase the attendance of awareness within the faculty.

Tennis Team | September 2015 - May 2018 | Queen's University

- Played on the Queen's University competitive tennis team against other Ontario universities.
